**DP SADDLERY LP**  
THE SADDLEMAKER

## *Sheepskin products for horses and riders*

We are a German family-owned business with production facilities in Germany, Uruguay and on the Philippines and worldwide distribution through the specialist shops for the particular product line. We have been making high-quality leather and sheepskin products for over 50 years now and since the beginning of the 90s we have also been putting our many years of expertise to use in the sheepskins product range for horses.

Our own tannery is one of the most modern in the world and provides us with ideal conditions for treating the sheepskin in its raw state using a special process. We source only the very best raw materials for our range of products – all of which we manufacture on our own premises – and we guarantee a consistently high level of quality. Over the past years our tannery has received several awards from environmental organisations for its environmentally compatible production methods and its exemplary working conditions. Since 2007 our tannery produces no CO<sub>2</sub> emissions – a major contribution in terms of protecting the environment.

We are very pleased to invite you to our website [www.horsedream-usa.com](http://www.horsedream-usa.com).

You will get there many more information about products, manufacturing-process and our company.

# Half Pads with and without rear sheepskin trim

Skilfully crafted, high-quality half pads made from genuine sheepskin and hardwearing twill. The extremely comfortable fit and the functional design speak for themselves. All the half pads can be firmly secured under the saddle so that they won't slip when you are riding and at the same time provide optimum protection for your horse's back. The special fabric used for our pads consists of several components quilted together. The sheepskin is tucked over to the top side at the front and can be used to position the saddle.

They can be supplied with or without a sheepskin trim. The depth of wool is approx. 1 1/4".

## Halfpad Ultra Triple Plus for high withers

This very striking sheepskin halfpad offers more space for high withered horses. Three pockets on each side of the spinal canal make the pad highly variable. The six single foam pads can be removed very easily and allow the customised adjusting of the saddle. The sheepskin has 30mm wool.

Article no.: 5103 XH

Colours: 62 black / natural

Sizes: WB

# Saddle Pads

## individual and functional

The Velcro strips and the withers cut enable the pads to be firmly secured and perfectly shaped to your horses back. The special rip-stop nylon feature at the girth position prevents chafing around the girth.

### Saddle Pad "Hunter Jumper"

The HorseDream Hunter Jumper Pad is specially designed to look great both in the show ring and at home. Made of sheepskin for exceptional comfort, it's contoured and shaped for a perfect fit under a hunter/jumper saddle. It helps eliminate rubbing, friction and pressure points, so not only does it look great it makes your horse feel great, too!

Article no.: 4380

Colours: 11 – white/white

Sizes: Full

### Saddle Pad "Champ" Dressage

Our genuine sheepskin is fitted to the underside where the rider sits. The depth of wool is approx. 1 1/4". The flaps remain free. All Pads are made using our special quilted fabric. The Pad is secured with Velcro strips which fasten to the girth straps on the saddle and a keeper at the bottom of the panel. The nylon protection incorporated helps to prevent chafing around the girth. The sheepskin is tucked over to the top side at the front and can be used to position the saddle.

Article no.: 5202 – D

Colours: 11 – white/white  
12 – white/natural  
62 – black/natural

Sizes: Full

### Square Pad "Champ" Dressage

Saddle cloth "half lined" with sheepskin.

Article no.: 5702 – D

Colours: 11 – white/white  
12 – white/natural  
62 – black/natural

Sizes: Full

# Western- and Endurance Pads

### Western pad with 3/4" wool

The undersides of the Western Pads are completely made of genuine sheepskin with 3/4" wool.

The backline is perfectly shaped to your horses back and fits to common western saddles.

Article no.: 6126 – 3/4" Lambskin

Colours: 62 – black/natural  
72 – brown/natural

Sizes: 30" x 30", 32" x 32"

### Endurance Pad "Champ"

The underside is made of genuine sheepskin where the rider sits and has a depth of wool of approx. 1 1/4". The flaps remain free. Velcro strips at the front and back are used to fix the pad. First the seat padding of the saddle must be removed and then the strips adhered to the fleece part of the saddle. The seat of the saddle is then put back again.

Article no.: 5212

Colours: 62 – black/natural  
72 – brown/natural

Sizes: Full

### Endurance Pad "Special"

The underside is made entirely of genuine sheepskin and features two different depths of wool: 1 1/4" where the rider sits and 2/3" at the sides for close contact with the horse. Pockets in the saddle pad enable it to be padded individually. Special composite foam padding is available for all endurance pads. Velcro strips at the front and back are used to fix the pad. The seat padding of the saddle is removed first and then the strips adhered to the fleece part of the saddle. The seat of the saddle is then put back again. The nylon protection at the bottom of the flaps helps to prevent the girth chafing.

Article no.: 5512

Colours: 62 – black/natural  
72 – brown/natural

Sizes: Full

# Bare Back Pads

An innovation engineered by HorseDream. Our bareback riding pads set new standards in terms of riding feel and riding therapy. Tests carried out by independent expert riders and riding therapists have confirmed the positive qualities and the effect that a Fellsattel has on the rider and the horse.

For the novice rider the HorseDream Fellsattel provides a great way to feel close to the horse and helps to build confidence. For recreational riders the Fellsattel is a welcome change to the traditional leather saddle. Even the dressage riders can train, educate and correct their horse with the Fellsattel.

Riding with a Fellsattel is pleasant not only for the rider, but also for the horse, as it adapts perfectly to the shape of the back. Even horses with extremely sensitive back muscles can ride easily. Whether you have a quiet, older horse, or a young, vital horse, the Fellsattel is suitable for each horse and has already reactivated so many a sleepy animal. And most importantly, your horse feels good!

**Fellsattel "Basic Plus"**

The „Basic Plus“ features everything required for bareback riding. The sheepskin seat is fixed with the substructure. Removable padding on the left and right of the spinal canal increases the seat comfort and protects the horse's back. Stirrup leathers can be attached to D-rings under the lambskin seat for better balance.

Article no.: 6301

**Fellsattel "Premium Plus"**

This model is equipped with some product advantages and has pommels that increase the feeling of sitting securely. The sheepskin seat can be detached by zippers. Removable padding on the left and right of the spinal canal increases the seat comfort and protects the horse's back. You can use also stirrup leathers. They can be attached to D-rings under the lambskin seat for better balance.

Article no.: 6303

**Fellsattel "Iberica Plus"**

The Spanish-style bareback riding pad. Removable padding on the left and right of the spinal canal increases the seat comfort and protects the horse's back. Stirrup leathers can be attached to D-rings under the lambskin seat for better balance.

## Seat Saver English & Western

The cut and fit of our models are ideally matched to the common types of saddles. They offer superior comfort. Thanks to our very special cut, the manufacturing is made without seams in the seat area. The density of the wool is extraordinary. Commonly we use a depth of wool of 1 1/4".

**Seat saver for English saddles**  
This saddle seat cover is fixed by pulling it over the cantle and with a Velcro strip through the saddle gullet. Two rubber bands fasten it at the skirt.

Article no.:	5000
Colours:	02 – natural 04 – anthracite 07 – brown
Sizes:	Full

**Seat saver Western I with elastic strap**  
This model is pulled over the cantle and the elastic strap is pulled over the horn.

Article no.:	6000
Colours:	02 – natural 04 – anthracite 07 – brown
Sizes:	Full

A large image showing a close-up of a brown leather saddle seat with a white seat saver. Below it is another image of a black leather saddle seat with a white seat saver. The seat savers are made of a thick, light-colored material and are designed to fit over the saddle seat.

# Saddle Girths

## Poll Cover

Article no.: 6524

Colours: 62 – black/natural  
64 – black/anthracite

Sizes: 2" x 12,5"

# *Care instructions and sheepskin detergent*

Thanks to our exclusive tanning process, all of our sheepskin products can be washed in a standard washing machine. Remove any foam accessories and close all Velcro strips. Products with any metal parts should be washed in a cloth bag. Wash with the wool wash or other delicates programme, set at 30°C (86°F). Use a special sheepskin detergent or a mild liquid household detergent. **Do not use soap or washing powders containing enzymes or bleach, or which are alkaline.**

When the wash cycle has finished you can spin-dry your product and then put it into a dryer, set at max. 40°C (104° F).

The movement and warmth in the dryer is very advantageous, keeping your product soft and supple. If you don't have a dryer you should dry your sheepskin product in the fresh air, but only in a shady place. Do not dry your product in the sun or on the heating! While your sheepskin is drying, keep pulling it into its correct form – when the leather fibres are damp, they are far more elastic than when they are dry.

## **C7 Special Sheepskin Detergent**

This detergent is ideal for washable sheepskins. It preserves the softness of the delicate fibres and protects their colours. Concentrated, biodegradable and environmentally friendly. It contains no phosphates or alkalis, neutral PH. Contains biodegradable anionic surfactants. Suitable for machine wash and handwash.
